Mayfair Homes

WELCOME

Welcome to Mayfair Homes

Mayfair Homes specialises in unique, cost-effective, custom-built designer homes. We are a client-focused residential construction company, with a commitment to building high-quality homes that complement all lifestyles and budgets.

We provide a professional and personalised building service, and with our experienced team of skilled tradesmen, we constantly exceed the expectations of our clients.

Mayfair Homes is a local, family owned and operated company. With a reputation for excellence, we are committed to offering a tailored building service to ensure our clients have the home of their dreams.

HOMES OF DISTINCTION

4 - 5	KITCHEN
6 - 7	BATHROOM
8 - 9	INDOORS

KITCHEN

Our kitchens are contemporary, yet functional and purposeful. They feature exclusive Italian Smeg appliances, hard wearing stone benchtops, custom made joinery, glass splashbacks, quality porcelain tiles, and German Hansgrohe tapwear. They are designed to suit every family.

BATHROOM

Our bathrooms are cleverly designed to ensure they are a place for relaxation and rejuvenation. Surround yourself with contemporary European tapwear and accessories, quality floor to ceiling porcelain tiles, and clever use of space. Not to mention all edges are showcased with aluminium angles.

INDOORS

A place for family gatherings or simply admiring the view, our indoor areas are inviting and practical. Glamorous brand-name door hardware, in conjunction with generous allowances for window and floor coverings, will ensure your living space becomes your own private sanctuary. Along with adequate storage spaces and first-class reverse cycle air-conditioning, you won't want to leave your home.

11

OUTDOORS

Our outdoor areas are perfect for children's play, entertaining or firing up the barbeque. Highlights include a large alfresco area, reinforced driveway and paths, sturdy fences and gates, and an irrigation ready water tank. Plus Austral bricks, Stegbar windows, remote controlled garage door, and a continuous flow gas hot water service are all provided.

ESSENTIALS

We design and construct our homes to take every advantage of the site's best aspects. All of our homes are built with meticulous attention to detail, using the quality craftsmanship of local tradespeople. When it comes to the fundamental elements of your home, we know you want peace of mind. That is why we include the basics, such as termite protection, stabilised timber frames and trusses, and an engineer designed concrete foundation and slab. Connections to water, sewerage, stormwater, gas, power, and telecommunications are also included. A three-coat paint application, seven year structural guarantee, as well as a minimum six star energy rating leads to your new dream home!
